BY

Y. BHG. TAN SRI DATO' SERI DR. HJ. MOHD ISMAIL BIN MERICAN
THE PRESIDENT
MALAYSIAN MEDICAL COUNCIL

DISCIPLINARY PUNISHMENTS BY THE MALAYSIAN MEDICAL COUNCIL AGAINST ERRANT REGISTERED PRACTITIONERS BETWEEN JANUARY - JULY 2009

AUGUST 2009

The Malaysian Medical Council meets on the second Tuesday of each month to discuss matters relating to the professional practice of medicine in this country. Concurrently on the previous day and on the morning of the same day, the Council also conducts inquiries under its disciplinary jurisdiction in the Medical Act 1971 against practitioners who had contravened the Council's Code of Professional Conduct.

While issues related to standard of care happens to be the common complaint, it is the more graver dereliction of the Code such as the peddling of psychotropic drugs over the counter by the practitioner or his or her staff to drug addicts, rampant selling of sick certificates without examining patients or when it is not warranted, and the conduct of non therapeutic abortion that undermines the trust of society towards the profession. Towards this end the Council wishes to assure the public that the welfare of the public is its paramount concern and such acts that affect society at large will be dealt with severely. As such, the public are hereby invited to forward any information of such unethical practice to the Council for it to investigate and to act upon.

The following registered practitioners have been found guilty and punished by the Council from January to July 2009.

An appeal against the punishment by the Council has been filed at the High Court by the Respondent on 09 SEPT 2009. As such, the execution of the punishment is stayed.

The enforcement unit of the Pharmacy Division, Ministry of Health is currently in the process of prosecuting the practitioner under the Poisons Act.

Prescribing of drugs is a privilege conferred by law to a practitioner under the Poisons Act and/or the Dangerous Drugs Act

The prescription of controlled drugs is reserved to members of the medical profession and of certain other professions, and the prescribing of such drugs is subject to statutory restrictions.

The Council regards as infamous conduct in a professional respect the prescription or supply of drugs including drugs of dependence otherwise than in the course of bona fide treatment.

Disciplinary proceedings may also be taken against practitioners convicted of offences against the laws which control drugs where such offences appear to have been committed in order to gratify the practitioner's own addiction or the addiction of other persons.

The contravention by a registered practitioner of the provisions of the Dangerous Drugs Ordinance and the Regulations made there under may be the subject of criminal proceedings, and any conviction resulting there from may be dealt with as such by the Council in the exercise of its powers under the Medical Act, 1971. Any contravention of the Ordinance or Regulations, involving an abuse of the privileges conferred there under upon registered practitioners, whether such contravention has been the subject of criminal proceedings or not, will, if proved to the satisfaction of the Council, render a registered practitioner to disciplinary punishment.

The employment for his own profit and under cover of his own qualifications, by any registered practitioner who keeps a medical hall, shop, or other place in which scheduled poisons or preparations containing scheduled poisons are sold to the public, of assistants who are left in charge but are not legally qualified to sell scheduled poisons to the public, is in the opinion of the Council, a practice professionally discreditable and fraught with danger to the public, and any registered practitioner who is proved to the satisfaction of the Council to have committed such offence will be liable to disciplinary punishment.
